PROJECTS

Ambulance Notification | 🔱 | 🌐
📅 06 2021 – 11 2021
- To enhance and avoid these problems, a web page with GPS technology will be utilized by the user to send coordinate and patient details to the admin, ambulance driver and police which will be connected to all. Hence it abler them to locate and reach the patient in proper time.
- Languages Used : HTML, CSS, PHP, MYSQL

Blood Bank Management System | 🔱 | 🌐
📅 12 2021 – 04 2022
- This web page will provide a common ground for both parties like client and blood donors and will ensure the full fulfillment of demand for blood for blood that requested by client. It can be used to view all the blood donor details.The registered user can also check the required blood which is availability.This process provides the required information in less time and also helps in quicker decision making.
- Languages Used : HTML, CSS, PHP, MYSQL
